

Solar Washington bi-monthly meeting topic and speaker feedback and Education Committee participation opportunities

Solar Washington and the Education Committee would like to hear from the membership about topics you would like to see presented for the following year's meetings. We'd also like to reach out the general membership with participation opportunities by contributing an article or two for the newsletter / website over the next year and also to help with content for our new website and possible educational events.

A sheet will be handed around of the suggested topics. Please write in a recommended topic that might not be already listed and then select the top 6 (including your recommendation) and also circle an item that you might like to help with over the next year. We'd also like the participation of the web audience too, so please take the next couple of minutes to complete the above instructions and email your results to HowardL@SunergySystems.com, just include the topic number's you'd like along with your recommendation and any items you like to contribute to.

Meeting Topics

- 1) PACE (Property Assessed Clean Energy), property tax financing program and other financing options
- 2) Calculating system performance and payback models
- 3) Snohomish PUD Solar Express and Clallam County Rebate programs
- 4) A summary of Washington State PV installed systems (grand total, by year, by region, and challenges & future projections)
- 5) The electric vehicle and solar electric connection
- 6) How to select a solar installer
- 7) A global perspective of solar deployment

Email Address or Name	Circle Participation Opportunity	A Suggested Topic (Item number 8)	Circle "6" Topics
Example@solarwashington.com	Article WebContent Educational	8) Solar powered donuts, by Homer Simpson	1) 2) 3) 4) 5) 6) 7) 8)
	Article WebContent Educational	8)	1) 2) 3) 4) 5) 6) 7) 8)
	Article WebContent Educational	8)	1) 2) 3) 4) 5) 6) 7) 8)

Web viewers, please submit your feedback and participation opportunities to HowardL@SunergySystems.com
